Intern Summit

A total of 15 students attended the first Intern Summit on July 28, 2011. Check out some of the students in attendance in the photo at the right. It was a casual setting at the University Center where students freely discussed positive and a few negative experiences along with some laughs. These students and others are helping pave the way for future student interns. Stay tuned for more meetings like this one.

The Positive Place for Kids!

The tag line for the Boys and Girls Clubs of America is “the positive place for kids.” The Hollywood Boys and Girls Club known as the Marti Huizenga Unit is no exception. Kenneth Fullwood is spending the summer at the club and working directly with the Health and Physical Education Coordinator. Professor Olson recently visited the Club and saw Kenneth in action. With 300–400 members in the Club each day, safety is a priority. Kenneth’s supervisor, Eric Easter, has made that part of Kenneth’s responsibilities. He emphasizes both physical and emotional safety! Check out Kenneth to the far right as he posed with some of his senior members after a basketball game.

Students are all smiles after the Intern Summit.
