ANNOUNCING!

MBA IN SPORT REVENUE GENERATION

We are very excited and proud to announce that a Master’s Program for SPT has been approved! You will hear more about the new program as we progress through the new academic year, but it’s available now. In addition to our regular announcements of opportunities, we have outlined the new program in this issue. The generation of revenue is important in all areas of sports. Our curriculum will groom students for this challenge and make them marketable to potential employers. In the next few weeks we will introduce our Advisory Board who will make recommendations, serve as guest speakers and help critique student projects. Congratulations to Dr. Fountain and Dr. Finley for their work to make this happen.

Welcome back to all our returning students as well as those who are new to NSU. We hope that you will read the newsletter which contains information about opportunities and hi-lights your fellow students.

Welcome Back

Description
The City of Hialeah's Department of Parks and Recreation provides a program that seeks to prevent crime, violence and drug abuse among youth. The program began in 1992 and targets "at risk" youth in our community. The term "At Risk" pertains to those children who have not been properly educated about hazards they face today or are in danger of entering into the juvenile justice system. Our main goals are to prevent our youth from making harmful decisions that will affect their lives, and bring about intervention for those children who have already made poor decisions.
