TV PRODUCER SPEAKS TO CLASS

John Sulser is the Producer of Marlins Baseball for Fox Sports Florida. He spoke to the students in SPT 3150, Facility and Event Management, on March 22nd. The students were surprised to learn that it takes about 40 people behind the scenes to run the “show.” John liken his job to that of a coach. He controls the flow of the show while the director, Jim Holly, decides which camera angles the viewers see during the broadcast. John is also in charge of the replay monitors. John stressed the importance of internships. He noted that his team must be prepared for anything. He always tries to have more material than he will need. He stressed the importance of critical thinking and problem solving.

John, Jim Holly and Ken Lee, who handles the graphics, travel with the team and work with different crews around the country. They are “guys in the truck” who bring you Marlins baseball!

OPPORTUNITIES

Jack Paltani, a member of the NSU Athletic Council, and his business partner, Tony Segretto, are working with Guy Harvey to develop a youth athletic fund raising program. They need an intern who would be responsible for researching online clubs, organizations and events involving youth sports.

This research will help them create a sales strategy and fund raising programs (which the student can be involved with) for the Guy Harvey one of a kind youth sports designs. The internship and the responsibilities that come with it can be done by the student at their discretion, from their home or dorm.

In addition we also have some youth athletic events coming up whereby, (depending on their availability) the intern can work the event selling the Guy Harvey merchandise and get paid. We believe this could be a wonderful opportunity for a student who has drive and an entrepreneurial spirit.

Thank you in advance with helping us develop this program!

WORLD CHAMPION ST. LOUIS CARDINALS!

Professor Olson spoke to Luis Morales again about this opportunity. Contact her if you are interested in more information. This volunteer position turned into a job for Luis after the 2011 championship season!

My name is Luis Morales and I work for the St. Louis Cardinals in Jupiter, FL. We are looking for a volunteer to help us operate the Trackman System during Spring Training and the Florida State League games. The system is very easy to use but requires the volunteer sit during the whole game and to be very detail oriented because every pitch needs to be tracked.

We were wondering if you can recommend one of your students. Before you reference us someone, it is important to tell you that this is a non-paid volunteer opportunity. If you have someone in mind or you need more information, please let me know.

Thank you very much!
