## M.B.A. with a concentration in Finance

The M.B.A. in Finance program provides a broad understanding of corporate finance, securities analysis, portfolio management, and financial institutions and markets.

Once enrolled in this program, you will take many of the traditional courses associated with a general M.B.A. program, along with courses that have been tailored to financial topics. The finance concentration offers courses that place primary emphasis on theory and analysis and make extensive use of the relevant techniques of economic analysis, mathematics, and statistics.

Most M.B.A. in Finance graduates enter their professional careers with positions in the financial arena of general businesses, investment banking firms, broker-dealer firms, management consulting firms, various departments of commercial banks, and other domestic and international financial institutions.
